

AN ADVERTISEMENT  
IS A CHALLENGE.

The man who advertises is fearless. He courts the light. He dares all and sundry to put him to the test. "This is what I offer," he says in effect. "Can you beat it? Can you do better elsewhere? Make comparisons and then do business with me only if you find it is to your advantage."

There is nothing hidden about the advertiser. He stands up for himself, for his goods, for his reputation, for his town. He wants everybody to know him, to know his methods of business and his manner of treating customers.

This makes it safe to do business with him. Having spent much money making his name known, he cannot afford to have it tarnished, and he will go much more than half way in an effort to correct a misunderstanding that is not of his making. He wants to tell more than the bare truth, to do more than what is really square.

CHIEF OF POLICE  
KILLED IN RAID  
ON GAMBLERS

PROMINENT MEN OF CUBA ARE  
HELD UNDER ARREST  
FOR MURDER.

(By Associated Press.)

HAVANA, Cuba, July 9.—General Armande Riva, chief of the Cuban national police, died today of wounds received Monday night in a pistol fight, after he had raided a gambling club.

Governor Ernesto Asbert, governor of the Havana province, Senator Vi day Morales, and Representative Ar las are under arrest in connection with the crime.

The shooting occurred during a pistol fight in the most crowded portion of the Prado.

General Riva, while driving with his two young sons, stopped his carriage in front of the Asbert club and caused the arrest of the doorkeeper for illegally carrying a revolver. As bert, Morales and Arias arrived in an automobile about the same time and a heated dispute arose. Insults were exchanged and each alighted, advancing in a threatening manner.

Arias and Asbert opened fire, Riva falling with a bullet in his head and another in his abdomen.

Seeing their chief fall, several policemen rushed up and opened fire, but Asbert and his friends re-entered their car and departed at full speed in the direction of Marana.

Riva's coachman was shot three times and two bystanders received bullets.

CARE OF DEPENDENTS  
BEFORE THE CHARITIES

CALIFORNIA DELEGATE TELLS  
OF IMPORTANT THINGS DO-  
ING FOR CHILDREN.

(By Associated Press.)

SEATTLE, July 9.—The care of dependent children related to social welfare and the relation of commercial organizations thereto was the principal subject discussed by the National Conference of Charities and Correction.

W. Almont Gates, secretary of the California state board of charities, told of important things his state is doing for dependent children.

ATTORNEY GENERAL ASKED TO  
INVESTIGATE BANK  
MERGER.

(By Associated Press.)

WASHINGTON, July 9.—Secretary McAdoo expects to ask the attorney general today to investigate the closing of the First-Second National bank of Pittsburgh.

Acting Comptroller Kane returned today after closing the bank. He said the First National should have been "cleaned up or closed up" at the time of the merger with the Second. The merger was authorized by former Comptroller of Currency Murray, and according to Kane the capital of the First was badly impaired.

IONE CINNABAR  
KEPT BUSY IN  
CONSTRUCTION

ERECTING FURNACE AND DRIV-  
ING TUNNEL TO CUT  
THE VEIN.

The work of opening up the big property of the Nevada Cinnabar company at Ione, under the general direction of A. J. Grier of Salt Lake City, ably assisted by Frank J. Davis and Fred Davis, the original developers of Ione cinnabar, is proceeding with splendid business despatch. There are 30 men at work now and this number will be increased very largely during the summer.

Material for the furnace and the needed buildings is arriving in Austin by almost every train and the stuff is being carried up Reese River with double shifts on the five ton Pierce Arrow motor truck. One car of lumber has already been delivered and a second will be in this week.

The first car of steel is also due to arrive this week and a second car of structural material will come up with in two weeks. The cement and lime required will all be delivered in July, and by the first day of August, twelve or fifteen brick masons will go to work on the furnace.

The big, hard job in connection with this mine enterprise, is the manufacture of 400,000 brick on the ground. This job, however, to an outsider, looks easy, when it can be stated that 100,000 brick have already been made.

There are at present 30 men employed and besides making brick, erecting buildings and delivering goods, there is a bunch of miners at work driving a tunnel to cut the cinnabar deposit 50 feet below the present level of development. The ore now blocked out will be sufficient to keep the furnace of 50 tons daily capacity busy until for into 1914.—Reese River Revelle.

32 MULE TEAM RUNS AWAY  
LEAVING DRIVER IN TREE.

CHICO, Cal., July 9.—Andrew Disch, driver of a combined harvester and thresher, saved himself from death yesterday afternoon when the 32 mules he was driving ran away with the large machine, by clutching the lowest limb of an oak tree under which the frightened animals dashed and holding on until the harvester passed under him, when he dropped to the ground.

Disch is an experienced driver, but could not control the mules when they became frightened at some unusual noise in the machinery, as they became panic stricken in a minute. He tried to keep his seat, perched high over the rear mules, until he lost control of the single line with which he was driving, and his small seat began to sway, threatening to pitch him among the runaway mules. He took advantage of his only chance for escape by catching the branch of an oak tree. The mules ran for about a quarter of a mile when they stopped. The harvester was badly damaged.

LEAKAGE OF GAS  
MAKES BIG HOLE  
IN THE EARNINGS

TONOPAH COMPANY DISCOVERS  
THROUGH USE OF TEST MET-  
ERS WHERE LEAK IS.

Manager Dowler of the gas company has had many vexatious problems tax his ingenuity since he took hold of the local plant, but the most serious one brought to his attention was the disparity between the amount of gas produced and the quantity consumed. The monthly reports showed a difference of 450,000 feet not accounted for, or a loss of over \$1000 a month. To find out the leaks Mr. Dowler has installed test meters by which he has traced the loss of 50,000 feet and hopes to detect the joints where the rest of his precious gas is going to waste.

That is why citizens are greeted with those vivid red meters at various points throughout the city.

SET OF DISHES  
CAN BE OBTAINED  
FOR ONLY \$1.50

REMARKABLE BARGAIN OFFER  
IS MADE TO HOUSEWIVES  
OF TONOPAH.

A complete dinner set of 42 pieces for \$1.50 is the startling offer made by the Bonanza, and that the housewives of this city are not slow in recognizing the exceptional bargain is proved by the large number of sets already sold. The sets are given with a year's subscription to this paper.

The prices of a year's subscription delivered by carrier is \$15. The price of the paper and the dishes combined is \$16.50. Many Bonanza subscribers have been regularly paying \$1.25 a month for several years. A saving of at least \$15 can be made by taking advantage of the clubbing offer. The dishes are of good grade and of neat design. Every home in Tonopah is in need of dishes and this is the opportunity to secure a set.

The offer will stand for a short time as the sets are being sold rapidly. Orders can be placed at the National Realty and Investment company where the dishes are on exhibition.

SINCLAIR QUILTS  
FIRE CHIEF FOR  
SIMPLE LIFE

HEAD OF TONOPAH FIRE DE-  
PARTMENT GOES TO RANCH  
NEAR WELLINGTON.

Billy Sinclair, head of the Tonopah fire department, has retired to the farm and his place has been taken by Henry "Poke" Kelly who ranked as first assistant. Andy Easton fills the vacancy caused by the promotion.

Both resignation and appointment were made effective at the meeting of the county commissioners today. Sinclair has been chief for the last three years and his conduct of his department has stood the ordeal of criticism. His ranch in Wellington is said to be one of the finest in Douglas county.

Last night the Nye county board met with Chairman Boerlin, of Esmeralda county, to discuss the official survey by which the boundaries are to be established. The matter was postponed to the next meeting for final action.

NATIONAL COLORS WOULD  
MAKE PARADE MONOTONOUS

To the Editor of the Bonanza:—Having noticed the letter addressed to you signed "An American," and realizing the injustice of his remarks, the committee takes occasion to point out to him that the prizes were offered to the best decorated float, go-cart, and auto; that there was nothing said about restricting the decoration to red, white and blue, and if the judges had seen fit to restrict the prizes to those who had used the national colors almost the entire line of the parade would have been disqualified. We call attention to the fact that the Peace float, the Woman's club float, the Suffrage auto, the Minnet float, the Brownie float, and many others were decorated in other colors than the national. Would he disqualify these and reduce the parade to a display which would be undoubtedly monotonous, however much we may love our national colors?

The committee is inclined to think that our friend, the knocker, whom we cordially invited to go to Goldfield, took occasion to come back, and as usual, went off "half cocked."

This Fourth has been unique in its spirit of good will and co-operation, and the committee feels in duty bound to come forward and defend those who helped to make the display so brilliant, and assure everybody that there was no distinction made by the judges as to color or arrangement. The prizes were awarded fairly to the floats, etc., that made the best showing. It was a contest open to all, and this committee wishes to inform the public that it stands by the decisions of its judges.

THE FOURTH OF JULY  
COMMITTEE.

BIG FIRE

SOLDIERS AND SAILORS TRYING  
TO PROTECT HOMES ON  
TAMALPAIS.

(By Associated Press.)

SAN FRANCISCO, July 9.—Two thousand soldiers, sailors and naval apprentices were detailed today by the government to fight the Tamalpais fire, which is seriously threatening Mill Valley, Corte Madera and Larkspur. The Muir woods are also endangered by the wind which now is high and expected to fan smoldering embers in that vicinity.

Many beautiful residences are in the pathway of the approaching fire.

WEATHER WARMER  
THAN LAST YEAR  
FOR EIGHT DAYS

AN AVERAGE OF THIRTEEN DE-  
GREES HIGHER THAN FOR  
SAME PERIOD IN 1912.

In looking over the weather records for the past eight days of July Observer Piercy finds that the local readings have been considerably higher than for the same period last year. The average daily maximum temperature was 88 and a year ago it was 75, or 13 degrees warmer.

The highest temperature was 92, on the 6th of last year it was 86. The average daily minimum temperature was 62 compared with 51 last year. The lowest this month was 52 on the Fourth and a year ago the reading for the same date was 41 on the 3d.

Precipitation for Tonopah from January 1 to June 30, 1912, was 3.95 inches, the lowest on record. The average of six years for the same period was 5.31 inches, and the record for each year was as follows: 1907, 5.24 inches; 1908, 5.30 inches; 1909, 7.49 inches; 1910, 4.22 inches; 1911, 4.93 inches; 1912, .06 inches.

Reno gave place to Winnemucca yesterday as the warmest city in the state in point of temperature, for Winnemucca had a high record of 94 while Reno's mark was 92. The figures in Nevada were eclipsed, however, by California. A temperature of 106 was reported to the weather bureau at Fresno and 98 at Sacramento. Phoenix moderated to 104.

Some of yesterday's temperatures follows: Fresno, 106; Phoenix, 104; Sacramento, Independence, Dodge City and Shreveport, 98; Winnemucca, Sheridan, Denver, Galveston, New Orleans and Montgomery, 94; Reno, Boise, Roswell, Oklahoma and Huron, 92.

WILL REWRITE HISTORY  
OF THE UNITED STATES

Francis M. Kieron, secretary of the Golden Arrow Development company whose recent articles in the Magazine of American History have attracted general attention has decided to devote his entire time to literature. He has been engaged in real estate business at Beaumont, California. Yesterday his father, E. M. Kieron, president of the Golden Arrow company, on coming to Tonopah, found a letter from his son in which the latter stated that he had received a good offer from a New York publishing house to deliver at an early date a revised edition of the History of the United States, for immediate publication. He will accept the commission.

DEATH OF OLD INDIAN.

Captain Mawaree Jim, the last of the Plute Indians who were opposed to the ways of the white men, was buried at the Pyramid lake reservation Sunday afternoon with the full Indian funeral service. The procession was led by an Indian band of 28 pieces and was followed by 600 Plutes in single file. Indian Agent Jones had charge of the services at the grave.

LIQUOR LICENSES  
ARE SUBJECT TO  
CENSORSHIP

NEW LAW REQUIRES THAT AP-  
PLICANTS FOR SALOON PRIV-  
ILEGES BE APPROVED.

Under the new law passed by the last session of the legislature all applications for licenses must first go to the board of county commissioners sitting as a liquor board before they are issued.

This action is for the purpose of weeding out disreputable characters who engage in the business and conduct places that are not up to the requirements of police regulations. Formerly it was the practice for any one wishing to start a saloon to take out a license without regard to the character of himself or the place he proposed to open and the commissioners had no power to refuse the application. Hereafter it will be necessary for every one whether they are opening a new place or have been running a saloon before to go through the formality of getting a permit.

SLEEPS ON TRACKS.

After being removed from the Southern Pacific trains in front of the depot at Wabuka several times, a prospector named Anderson, of Luning, who had just closed a deal for the sale of a mining property to the Gunn-Thompson interests, went back to sleep on the track and was ground to pieces by the engine of No. 24 at 1:15 o'clock on the morning of July 5. Brakeman Harry Drew, who came in from his run Sunday night, was told that it was an hour and a quarter before the remains were found. The man seemed to be determined to go to sleep on the tracks and he had been removed just a few minutes before No. 24 was due.—Gazette.

HOUSE MOVER MUST  
PUT BACK BROKEN SIGN

HIGHWAY COMMISSION STANDS  
BY AUTOMOBILE PEOPLE  
ON APPEAL.

To knock down an automobile sign and not replace it is a misdemeanor under the state law and one of the first things the new county highway commission did this morning was to get after Charles Aiken for his neglect to replace a sign for the destruction of which he was responsible.

Six weeks ago, while Aiken was moving a house to Tonopah, he knocked down a road sign near the Combination mill. The heavy load went over it and crushed it and Aiken left it there. Today a complaint was read from President C. G. Patrick of the Automobile association of Nevada and the board directed the clerk to notify Aiken that he must replace the sign at once.

The improvement of the roadway between Goldfield and Tonopah was the principal matter before the board today. It was stated that about \$100 expended now would put it into shape, and the board finally directed W. T. Walker, street commissioner of Goldfield, to look after the highway.

JACK LONDON IMPROVING.

(By Associated Press.)  
OAKLAND, July 9.—Jack London passed a comfortable night and his condition today is good, following the operation for appendicitis.
